LESSON REVIEW FOR 3-YEAR-OLDS

Hello to all our students! We all miss your smiling faces!

Parents: To keep your child on track, please review:

- Go over the date each day, stating, **"Today is (the day), (the month) 2020**.
- Say, "There are **seven days in a week**. They are: Sunday, Monday, Tuesday, Wednesday, Thursday, Friday, Saturday."
- Go over **shapes** and **colors**.
- **Count** each day 1 to 20.
- Teach your child to recognize **numbers** 1 to 10.
- Start helping your child recognize letters of the **alphabet**. Mix the letters up and try not to teach them in order.

We will start printing their names in September, and we think the children can start tracing. For example, see how Sara is drawn with dots below. We start tracing with dots, then the children can gradually do it by themselves.

As the children return in September, we will do sounds of the letters and introduce sight words.

Please keep healthy and God bless!
